

## **03-Day Online Certification Program**

### **AI in Agriculture & Career Opportunities**

---

#### **About the Program**

The **3-Day Online Certification Program on “Artificial Intelligence (AI) in Agriculture & Career Opportunities”** is a focused learning initiative designed to introduce participants to the fast-growing role of **Artificial Intelligence in modern agriculture**.

This program aims to bridge the gap between **traditional agricultural practices and emerging AI-driven technologies**, helping participants understand how data, automation, and intelligent systems are transforming the agri-sector.

The workshop is ideal for students, professionals, and agri-entrepreneurs who want to explore **career opportunities, innovation, and real-world applications of AI in agriculture**.

---

#### **Organized By**

**Your AgriStory & AgriHunars**

#### **In Collaboration With**

**AgriDoot & FarmVaidya AI**

---

#### **Program Objectives**

- To provide a foundational understanding of **Artificial Intelligence and its applications in agriculture**
  - To explore **career pathways and opportunities** in AI-driven AgriTech
  - To introduce participants to **Generative AI and Voice Technology** as emerging tools in Indian agriculture
  - To promote awareness of **smart farming, precision agriculture, and agri-business intelligence**
  - To empower learners with knowledge relevant to **future-ready agricultural careers**
- 

#### **Program Details**

- **Program Duration:** 03 Days
  - **Program Dates:** 16 – 18 December, 2025
  - **Program Time:** 04:00 PM – 05:00 PM (IST)
  - **Mode of Delivery:** Online (Zoom Application)
  - **Language of Instruction:** Bilingual (Hindi & English)
  - **Training Fees:** ₹299/- only
  - **Certification:** Digital Certificate will be provided upon successful participation
- 

### **Who Can Apply**

This certification program is suitable for:

- **B.Sc / M.Sc / ABM Graduates**
  - **Working Professionals**
  - **Early-Stage Startups**
  - **Agri Women Entrepreneurs**
  - Individuals interested in **AgriTech, AI, and smart farming innovations**
- 

### **Program Topics & Learning Areas**

1. **Understanding Artificial Intelligence**
  - Basics of AI and Machine Learning
  - How AI works in real-world agricultural scenarios
2. **Role of AI in Agriculture**
  - Smart farming solutions
  - Precision agriculture and data-driven decision making
  - AI applications in crop management, advisory systems, and agribusiness
3. **Career Pathways in AI & AgriTech**
  - Emerging job roles in AgriTech
  - Skills required for AI-based agricultural careers
  - Startup and entrepreneurial opportunities

#### **4. Generative AI & Voice Technology**

- Introduction to Generative AI
  - Voice-based advisory systems for farmers
  - The next big disruption in **Indian Agriculture**
- 

#### **Registration & Session Join Lin**

**Participants can register and join the AI in Agriculture certification program using the following official link:**

<https://lnkd.in/d--e6TQr>

---

#### **Contact Information**

 **Phone:** +91 8853231472

For queries related to registration, program schedule, or participation.

---

#### **Key Takeaway**

This program offers a unique opportunity to understand how **AI-driven innovation is shaping the future of agriculture**, enabling smarter farming practices, sustainable agribusiness models, and impactful career opportunities.

---

#### **Join the AI-Agriculture Revolution Today!**

Let's shape the future of **smart farming, sustainable agribusiness, and AI-driven innovation** — together.
